

Join Sierra Group Foundation's Collaborative

The Sierra Group Foundation stands for reversing the high rate of unemployment for Americans with disabilities, starting with veterans. One More Way is an open sourced, national forum created in response to businesses, service providers and job seekers with disabilities who have told us that "it's hard to get connected." The One More Way vision is to create a remarkable and visible network that can serve the most important growth industries of the day while connecting hiring managers to job seekers with disabilities.

Using the strength of our existing web portal, our Collaborative already includes more than one million participants from businesses, agencies and candidates. Driven by the static and high rate of unemployment for this talent pool, One More Way provides an opportunity for all interested parties to "come together to do together what we cannot do alone."

Our success is predicated on our members! We invite your involvement.

We welcome all job seekers with disabilities, all HR and hiring managers, including small businesses, and all non-profit agencies and government service providers to become members of our Collaborative. Together we will find at least "one more way" to drive up employment for workers with disabilities, including veterans.

Agency Member

One More Way is pleased to invite government agency and community-based groups who provide vocational rehabilitation, job coaching, job development, training or placement services to become members of our Collaborative at no charge to your non-profit or government agency.

Job Seeker Member

All job seekers with disabilities are invited to become members of the One More Way Collaborative! By becoming a member and submitting your job seeker profile and resume, you will be able to 'connect' directly to our growing list of national Hiring Partners.

Hiring Member

Holding true to our open-sourced commitment, the Foundation sponsors the exchange of candidate resumes and job orders to all hiring members. Additionally, hiring members have access to support the One More Way Collaborative while also gaining further targeted recruiting and/or training assistance.

To apply for membership, visit www.onemoreway.org

One More Way Members are Granted Access to the Following Tools:

The World's first customized disability and employment search tool

Powered by Google™, the Search for One More Way web based tool bar is the world's first comprehensive customized disability search tool. Use of this search tool actually narrows the expansive resources available on the Internet to a focus field dedicated to employment, accommodation, financial incentive and diverse hiring needs. For businesses, service providers, or job seekers, using this search tool provides tailored results from Collaborative members and other employment-specific resources, divided by region and specific relevant categories.

Job Board

Sponsored by Diversity, Inc. and The Sierra Group, Inc., members are welcome to connect job seekers to hiring partners via the One More Way Job Board. Our commitment to open source access will include: free distribution and searching of resumes, free access to service provider information, and the ability to connect job openings to job seekers through a variety of channels. This unique job board makes connections to candidates, businesses and service providers in both traditional and non-traditional ways.

Employment Incentives Web Portal

Employmentincentives.com has been assisting businesses and service providers to identify and access government-sponsored financial incentives and supportive resources since 2004. Today, more than 100,000 professionals visit each month to access information on training and financial incentives. This popular web portal provides both reasons and resources that strengthen and support the business case for recruiting and employing people with disabilities. Help drive up the number of people being hired and accommodated by visiting the site today.

Tele-Seminars

Because The Sierra Group participates in the nation's most noteworthy governmental and scientific research studies, and helps to shape and champion new legislation in the area of disability and employment, our perspectives are both relevant and timely. Combining this inside knowledge with two decades of hands-on experience in accommodating workers with disabilities, Sierra Tele-Seminar participants report that they learn facts, statistics, tested strategies, and practical tips from real world experiences about how the world of work can and does include people of all abilities.

ONE MORE WAY

GENEROSITY OF OUR
SPONSORS:

Sponsor Opportunities

The One More Way Collaborative would not be possible without help from our sponsors. Sponsors provide financial support that fuels our ability to provide relevant job matching assistance and to deliver community education for small and large employers about finding and employing Americans with disabilities.
